## GLEICHEN CAN INCORPORATE

### Mill and Elevator Looks Promising

#### Farmer Riley, M.P.P., is Pleased With Gleichen's Prospects

Over two-thirds of the money necessary for securing the elevator has been subscribed or promised and with Gleichen's usual enterprise the balance should be made up within the next couple of days.

There are several who have signified their willingness to subscribe and of those whose names appear on the list several have generously offered to subscribe a second \$50. Here is the list:

J. Jacques  
W. P. Evans  
W. R. McKie  
W. H. James  
T. H. Beach  
J. A. Renaud  
Millie & Wilson  
F. H. Blackburn  
A. R. Yates  
B. Wishart  
E. Giesbach  
F. K. McKay  
J. A. Beaupre  
J. T. Johnston  
D. C. Wishart

Owing to there being some doubt as to the possibility of Gleichen being incorporated a letter of enquiry was sent E. H. Riley, M. P. P., for this district and here is his reply which fully explains itself:

Editor The Call,--

I had read your very interesting article on "Mill and Elevator" in The Call of the 26th before I received your letter. I am pleased to hear of all the good things coming to Gleichen. You did perfectly right in calling upon me and you may be sure I will do all in my power to help in every way possible. I find that Gleichen was incorporated as a village on July 24th, 1899. So I gather that you now desire "town" incorporation. This can be secured by proclamation and I have written to the Department to have all the necessary forms forwarded so that there may be as little delay as possible. I will continue to push the matter right along and I informed the Department that they may call upon me if any help will assist in any way.

The farmers of Gleichen vicinity will find the mill a great boon to them. Being as the getting of the mill is to be a matter of contract and agreement I would suggest that a tariff for grinding for the farmers be inserted.

I will keep you posted on things and if it will help put me down for \$100. Always remember I am a Gleichen farmer.

Yours very truly

E. H. RILEY.

The agreement already contains a provision by which the mill shall submit its tariff to the council for approval.

The contents of the above letter was made known a day or two ago around town and the general opinion is that there is now no reason why Gleichen should not have the elevator this fall and the mill by next fall.

As it stands now those who subscribe may count on getting back their money and all they will be out is the interest on the amount until the town is incorporated and the proposition carried.

Now show your enterprise and help make Gleichen the town she should be.

The committee will explain the proposition to any person but will not sign anyone to sign.

## TOWN AND DISTRICT

Chas. Duhaime left Sunday for his home in Montreal, having received a telegram announcing the serious illness of his sister.

Southern Alberta has come out better in regard to this year's crop than any other portion of Canada.—Calgary Herald.

J. L. Laycock has resigned his position as farm instructor for the Blackfoot Indians at the North Camp and moved his family into Gleichen.

Calgary has secured the Dominion Fair for 1908 and unearthed natural gas. At this rate of going Gleichen will have to get a move on to get even in the procession with Alberta's present metropolis.

The Calgary daily papers have not let up for weeks roasting each other and belittling each others circulation and business. The readers, of course, are clamoring to read these attacks and their opinions of the editors are soaring.

The construction of the new \$10,000 building for the Canadian Bank of Commerce continues to be pushed rapidly ahead, and the general comment is: "That building is a credit to Gleichen."

The dance in the Foresters Hall Monday evening given by O. Desjardine proved a very successful affair. There was a big attendance and everyone thoroughly enjoyed themselves. The music was good, the floor just right and the supper A1, and much credit is due Mr. Desjardine.

Owing to our farmers being so very busy just now The Call has decided to wait until the harvest is all over to obtain a full report of the crop. Quite a number have filled in our table but we want to have it complete and it will prove interesting as the years go by.

"Little Mack" never forgets his friends and has sent The Call word to inform the merchants, shippers and farmers that they can get good prices for all the hay they can ship. He states there will be a great scarcity of hay throughout British Columbia during the coming season and says to quote prices on natural and timothy hay either F. O. B. point of shipment or Vancouver to the Vancouver Milling & Grain Co. of Vancouver.

The Canadian Pacific Irrigation Co. has just issued another handsome handbook entitled "Irrigation Project in the Famous Bow River Valley, 1907." It is a beautifully gotten-up pamphlet containing many cuts, a good map of the district and a great fund of general information and statistic that is useful to the irrigation farmer as well as to those who are thinking of coming to this district. Among the illustrations is a splendid cut of the company's Demonstration Farm No. 3, at Gleichen. The handbook contains much valuable information on mixed farming that every farmer should read. The Call will from time to time give a few extracts from this pamphlet.

It is understood D. L. Brereton will be appointed the new farm instructor at North Camp, as he is a good practical man and his appointment meets with general approval.

When we get rich enough to stay up at night until we get good and ready to go to bed, and can lie back in the morning until we want to get up, we are going to knock off work and call it enough.

That is a self-made man—the man who keeps pace with the college-bred fellow without having to pass through the gloomy shadow of an academic life.

## GLEICHEN HAS A LOT OF CHEERFUL FARMERS

The farmers in the Gleichen district have been doing some great execution in their grain fields the past week and as a result practically all of the grain is now cut and most of it in stook and stack.

It is indeed cheering to hear the reports of these men when they came to town. Nearly everyone of them say that their grain is proving much better than they had expected, and they straightway begin to tell of their plans for next year and how they will remedy the mistakes they made this.

Of the few who cannot report good success none are heard to blame the country or climate but freely admit that it is themselves that are to blame in not preparing their ground thoroughly or for late planting, or some other reason. These farmers are indeed to be commended for taking so cheerful a view, which is not always the case in other communities. Still, it only proves their own good sense in placing the fault where it belongs and we may expect good things from these men in future.

For example here is the cheerful way Mr. P. J. Umbrite spoke on Saturday, who only came here last fall:

"I admit that some of my spring wheat was slightly touched by frost, but I have travelled in many parts of this world and have not yet seen the country that has not its lean years, and I know of none that suits me better than this. This year I have the finest crop of spring wheat I ever saw in my life and of all the visitors who have been to see it none have said they ever saw as fine a field, and men have come from the east and west in fact from all over. There is nearly 100 acres of this spring wheat and, as you know, the field was as level as it is possible for a field to be. It is all down now but about four acres and will be in stook tonight. The straw will easily average over four feet high and as it comes from the binder each cleaf laps over the other. It is a pretty sight to look at that field to-day and I am proud of it, with good reasons, I think. This field has not been irrigated and as I have practised irrigation for years I am wondering what I should expect next year when I will be able to irrigate. This is the most productive soil I have ever seen and if this is an exceptionally bad year, which I must believe as so many say it is, then this is truly a wonderful country. Anyway I am well satisfied with my first effort here and am going to build a granary for my first crop."

Mr. Umbrite is not the only cheerful newcomer who has met with success, but there are others.

Here is another example. This one is taken from one of our oldest farmers, within a mile of town, and is now owned by John McEwen. These facts are taken from figures supplied by Mr. McEwen himself on the table The Call has been asking the farmers to fill. This year he had in crop 65 acres of oats, which he estimates will yield 65 bushels to the acre—total 4,225 bushels; and 5½ acres of barley estimated to yield 75 bushels to the acre—total 412½ bushels. A total in all of 4,637½ bushels of oats and barley from 70½ acres. Next year Mr. McEwen expects to add to his crop 12 acres of wheat, 30 of oats and 15 of barley. He has had the advantage of several years experience here and as a result had all his crop in stook before the recent storm and has no losses to count. At the prevailing prices for oats and barley Mr. McEwen will have a nice little sum coming to him, but he also goes into some mixed farming and has made something out of feeding out for years.

These two examples show very plainly what has been done here this year, where good care has been taken, and then considering that those farmers who had in fall wheat had it all cut before the storm, it will be easy for the newcomer to decide what he should do next year, namely: Put in all the fall wheat possible and in the spring plant as early as it can be sown. At least this seems to be the general opinion among the farmers.

## CATHOLIC MISSION ENTERTAINMENT

The entertainment given in the Foresters Hall Friday evening in aid of the Catholic Mission proved a very successful affair financially and socially. The events of the evening favored more of a social gathering than otherwise and the whole affair worked so nicely that every one went away quite well pleased with the evening spent.

Conductor T. H. Beach occupied the chair and in his happy way materially assisted in keeping the audience in good humor.

The program provided was not lengthy and while all of the items were fully in keeping with Gleichen's best talent, there were several items exceptionally good.

Unfortunately several members of the Glee Club were absent, yet the first item on the program by the club entitled "Sweet and Low" brought forth applause in plenty.

Miss Burne sang two solos entitled "Over the World Together" and "The Song That Reached my Heart" and was very heartily applauded.

"Mozart's Art Symphony" was well rendered by an instrumental trio composed of Miss Fraser and Mr. Brown on the violin, accompanied on the piano by Mr. Todd.

"What the Little Girl said to The Missionary Lady," was a comic recitation, well rendered by Miss McEwen.

Mr. McCoy sang in excellent style "The Pretty, Pretty, Creatures," and everyone appeared, willing as the chairman suggested, "to take his word for it."

Mrs. Beaupre and Miss Carson and Messrs. Brown and Fisher sang in quartette "Imanita," after which the Glee Club sang "Robin adair," and then The Fishing Pond novelty was announced.

The fishing proved a great source of fun for every one, and the children especially. Across one end of the stage a curtain hung about seven feet high and each child paying five cents and adult 10 cents had the privilege of casting a line over the curtain for a fish. Whatever kind of a pool existed behind the curtain still remains a mystery, but there were some very fine fish landed from it. The nearest report could come to solving the mystery was the discovery of several mermaids in the pool whose voices sounded quite familiar. But, my, oh, my, what a quantity and variety of fishes they had stored there. Among them being the comb-dish hat-pin fish, tin whistle fish, candy box, and fish never heard of before. But never a mermaid did the boys catch, and no one fell into the drink. After the fishing coffee and cake was served and the gathering broke up. The receipts of the evening ran over \$50.

## STACK YOUR WHEAT

"Tell the farmers to be sure and stack all of their wheat," said J. M. Telford to The Call the other day. Then after some discussion with J. L. Sken and a couple of other farmers who came along it was unanimously decided that to this should be added the advice that before stacking the farmer must be sure to have his grain thoroughly dry. It was pointed out that wet wheat will "cok" in a stack, but that if the wheat is dry stacking it will materially help to ripen it and give it a golden color even though it is slightly injured with frost.

W. PARK EVANS, - - - Publisher and Proprietor.

Gleichen, Alberta, October 3, 1907.

It is a difficult matter to look at the  
future of the Gleichen District from  
any point of view without acknowl-  
edging that it is destined to be a wonderful  
wealth-producer.

This district offers every inducement  
to men of energy and push. Many  
lines of trade and industry are not  
represented here and those in search of  
good locations cannot do better than  
come here and investigate for them-  
selves. We have farming, ranching and  
mining.

There is one means by which every  
man in this district can assist in ad-  
vertising and building up this country,  
and that is by sending The Call to those  
whom you know are likely to become  
interested here. There is nothing so  
effective as reading the news regularly  
to convince men of our wealth and re-  
sources.

Never forget that you are a part  
of a town, and that your own depart-  
ment helps to make up the strangers  
estimate of the place. Sell all you can  
and buy all you can at home. Every  
dollar that is sent or carried away  
from home makes the town that much  
poorer. If you have the means invest  
in something that will give somebody  
employment. Do not kick at a pro-  
posed improvement simply because it  
is not at your door.

Can a newspaper please everybody?  
It cannot. Ought everybody be please-  
d? No. Why not? Well, if a news-  
paper pleased everybody and everybody  
were pleased the time spent here upon  
earth would be so monotonous that the  
people would not care how soon the old  
globe on which they repose went to  
pieces. A newspaper must rattle the  
dry bones, make people mad, be boy-  
cotted, kick up old Harry, tell the truth,  
and trust to sober, sound thought of  
the fair-minded people.

Probably there never was a time in  
the history of any section that individ-  
ual effort was so greatly needed as at  
the present in this district. The supply  
centres are what our sturdy pioneers  
have made them, but their future de-  
pends upon the integrity, energy and  
frugality of the men doing business  
with and for the country of which so  
very much has been said and written.  
Each individual has a duty to perform.  
That duty is to himself in exerting  
every effort to improve what is already  
his, in the broad sense of equality.  
Every legitimate enterprise ought to  
receive the earnest sanction and hearty  
co-operation of all. What is to the ad-  
vantage of one is advantageous to all.  
Let us then, individually and collectively,  
begin systematic preparations to receive  
the influx of humanity that is sure to  
come as we are of the sun rising to-  
morrow. Each town will be the dis-  
tributing point for the country tributary  
thereto, and our citizens and merchants  
cannot afford to rest upon that already  
gained, but must prepare for more.  
The demand for buildings, for residences  
and offices, already felt, will be such  
that it would be unfortunate indeed  
were they not provided. If you have  
confidence in the country show it in a  
substantial manner. Wait for no one.  
Individual effort is everything at the  
present and always.

**WAGES AND PROFITS**

A capitalist, who has been visiting  
Western Canada, attributes the hard  
times to the expansion of the price  
of labor. He believes that wages have  
become so high that it is impossible  
for business to continue.

During the last eight years John D.  
Rockefeller has made profits amounting  
to \$100,000,000, which is considerably  
more than any laboring man has made  
during the same time. During that  
same period, many, many millionaires

have been created in the United States,  
and these millionaires and the second  
generation have been buying up the  
money that was thus created.

The wages of labor are not too high.  
The wages of capital in many instances  
are very much too high. Considering  
the increased price of commodities,  
labor is no better paid than it was a  
few years ago. But capital is.—Calgary  
Albertan.

**WHEN NOTHING HAPPENS**

Frequently you pick up one of the  
local papers, and after glancing at the  
headlines wearily thrust it aside, re-  
marking, "Nothing in the paper to-  
day." Did you ever stop to think what  
that phrase—"nothing in the paper  
today"—means? It means that in the  
day or week just past that no mis-  
fortune has befallen anyone in our city;  
that no fire has wiped out a neighbor's  
worldly goods; that the grim angel of  
death has crossed no threshold of a  
friend; that no man driven by liquor,  
hatred, or fear has taken the life of a  
fellow human; that no poor devil,  
haunted by the past or the misdeeds  
of some other, has crossed the great  
divide by his own hand. So the next  
time you pick up a paper that doesn't  
announce a tragedy, give a little thanks  
instead of grumbling because there is  
no news.—Nevada (Mo.) Mail.

**HIS PARTING BENEDICTION**

A country minister in a certain locality  
took permanent leave of his congrega-  
tion in the following pathetic manner:  
"Brothers and sisters, I come to say  
good-bye. I don't think God loves this  
church, because none of you ever die.  
I don't think you love each other, be-  
cause I never marry any of you. I don't  
think you love me, because you have  
not paid my salary; your donations are  
monthly fruit and wormy apples and  
by their fruits ye shall know them." Brothers I am going away to a better  
place. I have been called to be chap-  
lain of a penitentiary. Where I go you  
cannot come, but I go to prepare a  
place for you, and may the Lord have  
mercy upon your souls.—Good-bye."

**The Gleichen Call**

A CALL to the landless of the world  
settle on the unoccupied, fertile  
irrigated lands of "Sunny Alberta"  
surrounding Gleichen, the heart and  
centre of these lands.

A CALL to the professional man, the  
artisan and the laborer to make his  
home in that Gleichen, which is  
certain to be one of the most prosper-  
ous towns in "Sunny Alberta".

A CALL to the capitalist and the invest-  
or to invest in a town and  
district, which will without any  
doubt repay his investments a hun-  
dred fold in the future.

A CALL to those in search of health—  
the greatest of all earthly blessings  
—to come to a Province becoming  
famous as a land of sunshine, neither  
excessively torrid nor frigidly  
arctic—a happy climatic medium.

A CALL to those now here to work for  
the interests of that Gleichen they  
have made their home, to work for  
its present interests and its future  
welfare; to work unselfishly and  
unitedly for its advancement and  
prosperity. To work and never rest  
content till "Our Town" reaches  
a higher and a higher and a still  
higher position, not to cease their  
endeavors 'till at last she takes her  
place as one of the foremost cities  
in fertile, mineral-endowed, healthy,  
beautiful, Sunny Alberta.

**AT A COWBOY DANCE**

Git yer little sage hens ready,  
Trot 'em out upon the floor,  
Line up there, you cusses. Steady!  
Lively now! One couple more.  
Shorty, shed that old sombrero,  
Broncho, douse that cigarette,  
Stop yer cussin' Casimero,  
Fore the ladies. Now, all set.

'Tut' yer ladies. All together.  
Ladies opposite the same.  
Hit the lumber with yer leather,  
Balance all an' swing yer dame.  
Bunch the beauties in the middle,  
Circle stags an' do as do,  
Pay attention to the fiddle,  
Swing her round an' off you go!

First four forward, back to places.  
Second fiddle. Shuffle back.  
Now you've got it down to cases,  
Swing 'em till their trouters crack.  
Gents all right a heel an' toin',  
Swing 'em: kiss 'em if you kin,  
On to next an' keep a-goin'  
Till yo' hit yo' pard's ag'in.

Gents to centre: Ladies round 'em,  
Form a basket. Balance all.  
Whirl yer gals to where yo' found 'em,  
Promenade around the hall.  
Balance to yer pards an' trot 'em  
Round the circle double quick.  
Grab an' kiss 'em while you've got 'em,  
Hold 'em to it if they kick.

Ladies' left hand to yer somnies.  
Alaman. Grand right an' left,  
Balance all an' swing yer honnies,  
Pick 'em up an' try their left.  
Promenade like sneaky cattle,  
Balance all an' swing yer sweets,  
Shake yer spurs an' make 'em rattle,  
Keno! Promenade to seats!

## SHIPPING CATTLE TO CHICAGO MARKET

An Experiment Recently Made By Red Deer Cattlemen

A few days ago J. L. Geisinger, Chas. Reid, A. L. Powne and George L. Reed of the Central Alberta Stock Growers' Association, shipped 21 carloads of cattle direct to Chicago, as an experimental test.

The Weekly Live Stock Report of Chicago, reports the experiment as very successful. It says:

One load of these steers averaged 1,300 lbs. and brought \$6.10 per cwt., grossing \$85.18 per head; 21 head, averaging 1,374 lbs.; realized \$5.50 per cwt., grossing \$75.57 per head; another lot of 122 head, averaging 1,245 lbs. sold for 5.30 per cwt., these representing a gross of \$66; a fourth lot of 64 head that averaged 1,159 lbs. brought \$4.60 per cwt., representing a gross of \$53.34. In addition to the steers they had some cows of medium weight that grossed from \$40 to \$60 per head. The cattle were two and three, mostly of Shorthorn breeding.

When it is considered that the duty is appraised on the basis of \$30 for three year old steers, and \$40 for four, and that so far as cows are concerned, there is a general appraisement of \$20 per head, the 27 1/2 per cent. of these figures does not seem so prohibitive as a good many people might think. A glance will show that so far as the steers are concerned it means \$8.25 to \$11 per head and on cows practically \$5.50 per head. The above sales indicate without question that the heavier and better Canadian cattle can be very profitably sent over the line to this market.

Despite the big run on cattle (35,199 head) that we had here Monday, the steers at \$5.30@5.10 sold at prices practically steady with the close of last week. There is an excellent demand for these heavier weight steers and a splendid inquiry for the heavy cows. In fact prime western cows are quotable up to \$5.25 per cwt. With the prospect of a shortage of corned natives, there is going to be a strong demand for the heavier weight rangers throughout the entire season, and this should be a big inducement to the Canadian ranchmen to keep the Chicago market well in mind.

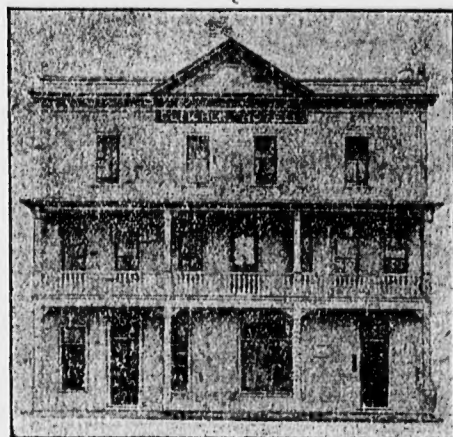

These cattle were loaded at Red Deer, on the C. P. R., the above owners all ranging within a radius of fifty miles from that point. It was the first shipment that had ever been made to Chicago from that immediate section. They came via Portal, over the "Soo" Ry. to St. Paul, thence over the "Milwaukee" to Chicago. The cattle were unloaded and rested three times, the first stop of thirty six hours, at Velva, N. D., and the last at about the same length of time at St. Paul.

A scientist has discovered that it is dangerous to kiss without first washing the mouth and lips with an antiseptic remedy. Upon every lip lurks bacteria awaiting an opportunity to switch its location. Look not upon the lips when they are cherry red in the moonlight, for in the end the microbes will sting you, and the bacteria will bite you into an early demise. Science is wonderful. It reveals many unknown dangers that we have dallied with in the past, only escaping the terrors of bacteria by an element of luck. While science has revealed this greater danger, and provided a remedy, it has also increased mental anxiety. Suppose a girl with ripe bacterian lips should suddenly grasp a man and kiss him before he could flood his mouth with antiseptics what agony he would endure waiting for the bacteria to develop, and carry him beyond the clouds. It is simply awful to contemplate the chances we run every day, and a man to be reasonably safe should be a clerk in the store of a man who does not advertise. Bacteria are never swapped when a man is alone.

### Where do They Help

The mail carrier in Elko sure worked hard this past week packing catalogues from the cent belt. Where the bargain book comes from in the sweat shops, where the girls have to join the squirrel clubs to dress themselves, etc. Draw an easy chair to the table where the light will shine full on the page, and put your glasses on that no bargains may escape your eye. Don't worry about the home merchant you forgot to pay last month. What a wonderful book it is to be sure—wonderful for what it does. We miss a good many things we would be glad to see. What page do they offer to take your spuds, cabbage, butter, eggs, hay, oats, etc. What will they pay for your catfish, cayuses, 10 a. chicks, F.O.B. your local station? How much taxes do they pay to support your schools and educate your children, for improving your roads and bridges, for which you are always crying out for repairs? On what page is their offer to contribute money to the support of your churches? What line of credit will they extend to you when you're out of work or your crops are a failure and your money gone? When through illness or misfortune you are not able to send cash with your

order? What will they do for your pianos, your children's entertainment? What return do you get for all the money you send out of your community? None! None!! NONE!!!—Herbald, Cranbrook, B. C.

Don't forget our trio: Coal mining, farming and ranching.
